

<b>Vacancy Information</b>	<b>Job Title: Senior Technical Consultant - Air Quality</b>
<b>Business Unit:</b> AEA Mediu Consulting SRL	<b>Job Location:</b> Bucharest office

**Role purpose:**

AEA Technology plc is a leading international consultancy delivering outstanding technical advice, policy support and project/programme management services. With unrivalled sector insight and a reputation for producing innovative solutions from development through to implementation, we offer a stimulating and rewarding environment in which to work.

AEA uniquely offers a complete suite of policy, advisory and implementation services on air, including emissions inventory development, environmental data systems, local and mesoscale modelling, assessment and forecasting, instrument calibration, monitoring network construction, operation and calibration, as well as regulatory policy advice and development. We also offer noise, odour and oil pollution assessment services.

AEA Mediu Consulting SRL is the Romanian subsidiary of UK based AEA Technology PLC ([www.aeat.com](http://www.aeat.com)), acting in the field of consultancy for environment and energy. We're experiencing an exciting period of growth, which means, for you, there couldn't be a more proper time to join us and make your mark.

Technical Consultants deliver specialist expertise on consultancy projects. They have technical knowledge in a defined specialist area and are often leading experts in their field. In this role, the consultant will help our public-sector customers to develop, implement and evaluate policies at local, national and international levels. They will also use this experience to advise private-sector customers on the likely impact of policy and regulation. Where possible, consultants will contribute to business development opportunities and lead proposals to UK and international customers.

**Successful candidates will demonstrate the following skills:**

- Excellent problem solving skills
- High levels of numeracy
- Good decision making abilities
- Capability to make decisions
- The ability to communicate, influence and network effectively both internally and externally
- The ability to work to commercial imperatives
- IT literacy (Word, Excel, Outlook etc)
- Excellent team working abilities
- The ability to demonstrate leadership
- **Good knowledge to English language is a must.**

**The Person will have to have:**

- A background in Air Quality policy support within the public sector environment.
- Familiarity with air quality consultancy tools - such as emission inventories, dispersion modelling, Local Authority review and assessment or cost-benefit analysis.

- Understanding of the air quality issues in the UK, Romania and EU associated with a particular sector e.g. power generation, industry, transport etc. or at a particular geographical scale e.g. Local Authorities or Devolved Administrations.
- Some knowledge of atmospheric chemistry and atmospheric physics would be advantageous.
- Previous experience of business development would be highly valued.

In return for your commitment, drive and enthusiasm, we offer an extremely attractive remuneration and benefits package, a personal development plan, and the opportunity to make a difference in a challenging and rewarding field.

The AEA group strives to be an equal opportunities employer.

**Applications - Please apply by sending your letter of intention and CV in English language to [aeamediu@aeat.co.uk](mailto:aeamediu@aeat.co.uk) or by fax at 021 315 14 78, no later than 1 September 2008.**
